For your threading pleasure...

You may also want to check out [this interview with Richard Heinberg and JH Kunstler with Jim Puplava over at FinancialSense](#) (it's about an hour). I found it to be a good "primer interview" that you can send to people who might be inclined to listen. (Plus, there's a pretty cool plug in there regarding TOD by Heinberg about ten minutes (47 mins in) from the end. Thanks for that, Richard.)
