Send (or link to) the press release to your elected representatives, media outlets, put it in the comments at other blogs. even if someone has done it already, hit it again! This set of ideas needs to get out.

how to get in touch with your MoC: <http://house.gov>, <http://senate.gov> (though the suggestion about getting to the staffers in the comments of the prior post is a good one), check out your state House and Senate sites too, send it locally...send it somewhere! Emails, print it out and give it to people, whatever!

don't forget to check out the next post regarding the peak oil and sustainability conference in DC either.
