The first ad in the left sidebar is from the Zion-Mojave Wilderness Initiative. Activism and blogging at its finest. The second ad is from Fisher Investments. Worth a click if you're an investor.

Thanks to both of them for helping keep the lights on at TOD. TOD (read as mostly SuperG ...many thanks to him and the folks at ScoopHost too) has recently moved to its own dedicated server, which for those of you who know anything about that stuff know it's a pretty costly endeavor; we could not do that without the adverts. There are other improvements on the way as well, but we'll unveil those as they become ready.

And we would have no reason to keep all of this going if we didn't have one of the best communities in the blogosphere to make it worthwhile. Your dedication to keeping this dialogue on energy full of intelligent and informed reason, patently empirical, and devoid of polemics is what makes TOD worth coming back to. Let's keep it that way.
