Topic: [Site news](#)

The Oil Drum has just been migrated to [Drupal](#), an open source content management platform. By design, the new site looks very similar to the old site. We will be bringing new features online in the near future, but for now we want to avoid changing too many things at once.

All of the old content and user accounts have been transferred over, but the user passwords have not. To obtain reset your password, please follow [this link](#) or click the "Request new password" link on the upper right hand side of the page.

Email support at theoil drum dot com if you have any problems.

[UPDATE 12/25/06 1:13a EDT] There seems to be a glitch with the ordering of comments. Top-level comments left on the new site appear at the top of the thread, whereas the older top-level comments left on the old site appear below. Sorry about that.

[UPDATE 12/25/06 11:43a EDT] Now there are links in the user profiles that go to a list of a user's comments in addition to a list of stories with the user's comments.
