An open thread to discuss JHK's latest, "[The Big Chill](#)." While you're at it, refresh yourself by reading Robert Rapier's many posts on ethanol, which he nailed long ago. ([\[1\]](#), [\[2\]](#), [\[3\]](#), and [\[4\]](#) are just some examples, find the rest by clicking on Robert's name and going through the story list...), as well as EP's "[Sustainability, Energy Independence and Agricultural Policy](#)".
