New feature: PDF versions of stories

Topic: Site news

In response to popular demand, PDF versions of TOD stories are now available. There is now a "PDF version" link below the story teasers on the front page. Clicking on it will download the PDF file to your computer.

The PDF file is generated the first time it is requested. It takes a few seconds, so if you are the first person to request the file, please be patient.

Generating well-formed PDF from from poorly-formed HTML not easy, so you will notice many imperfections in the output. In some instances, it may not work at all. If you find a problem, please email me at support at theoildrum dot com, although there's a pretty good chance I won't be able to fix it.
