A few weeks ago, Glenn [announced](#) that TOD:NYC was transitioning to TOD:Local. He described TOD:Local as a place where TOD readers from all over the world can contribute examples of environmental best practices from their communities.

As part of the transition, we have a new url, <http://local.theoil Drum.com>, and a new RSS feed, <http://feeds.theoil Drum.com/theoil Drum/local>. Please update your links, as the old ones will go away soon.
