Topic: [Policy/Politics](#)

[JDH has an interesting piece over at Econbrowser on the Simmons \\$5k PR move/bet/political statement/belief in his cause.](#) (I meant to post this yesterday, but I forgot, I know many of you have been over there already from the comment boxes...). Still very much worth the read if you haven't been there yet.

<kind of inside joke for those who have read the post>

(and one more thing, \$2500 (the amount you have to pay to see the CERA report) is still a ridiculous amount of money...but JDH is worth closer to \$2500 than CERA is for my money any day.)

</kind of inside joke>
