Here's your president talking about contemporary energy matters ([original video link](#)).

and we can't embed CNN's video player, so you'll have to go over there and watch Kunstler's well-done piece on Glenn Beck if you haven't seen it already:

And, yes, under the fold, if you can believe it, yes, that's your president doing his best Dr. Evil (from *Austin Powers*) impression. No, I am not kidding.

GWB, you make life a little too easy sometimes, you know that, dontcha?
