Long time peak oil analyst Ken Deffeyes (former Shell Oil geologist and current professor Emeritus at Princeton University) was interviewed on [Brisbane radio station 4BC](#) today - click [here](#) to listen.

Kenneth Deffeyes, former Shell Oil geologist and Professor Emeritus at Princeton University, claims crude oil is too valuable to be burned as a fuel.

ASPO Australia's Ian Dunlop will be interviewed on the "[Open House](#)" radio program on Sunday at 8pm - see [here](#) for a local station.
