*Chris Nelder was on Yahoo's Tech Ticker with Aaron Task today. Chris is author of [Profit from the Peak: The End of Oil and the Greatest Investment Event of the Century](#) (which was reviewed by Robert Rapier in [this post](#)). Chris will have another book (with Jeff Siegel) coming out soon, [Investing in Renewable Energy: Making Money on Green Chip Stocks](#), but it doesn't come out until October.*

Here's a link to a second video, which I am having a harder time bringing over: [The End Is Nigh: Peak Oil Proponent Forecasts Grim Future](#). (Yes, that's right, Chris is a "proponent" of peak oil. Why not just call him an "advocate." Jeesh Yahoo!, you should know better.)
