http://pesn.com/2005/09/11/9600163_Katrina_Oil_Aftermath/

It is not a pretty picture (in fact I would like to hear some critiques of this if there are any to be done.)

The linked article discusses the author's perceived repercussions of Katrina's impact on the Gulf oil infrastructure. There are also some remedies discussed in the piece, including emergency spending on alternative energy technologies. The article also discusses the ramifications on employment in other industries, agricultural production, etc.
