This is a slide video of the presentation given by Rolf Widmer and David Rochat at the Oil Drum/ASPO Conference at Alcatraz, Italy in June 2009. Rolf and David work at [EMPA](#) and [SOFIES](#) on more efficient material management for industrial society. Their talk is about the flows, availability, and recycling of minerals in industrial ecosystems, called Mining the Technosphere: a Solution for the Industrial Ecosystem (Presentation PDF [no.1](#) [no.2](#), 1.8 MB each).

[Mining the Technosphere: a Solution for the Industrial Ecosystem?](#) from [Rembrandt Koppelaar](#) on [Vimeo](#).

I apologize for the poor sound quality, if there are Oil Drum readers who have expertise in sound editing and can tell me how to upgrade the quality besides basic noise removal please contact me at [contact @ peakoil.nl](mailto:contact@peakoil.nl)
