Beyond Zero Emissions is organising a talk on Oceanlinx's [wave power](#) technology which might be of interest to Melbourne based readers - [The Latest Developments in Wave Power Technology](#).

Guest speaker: Scott Hunter

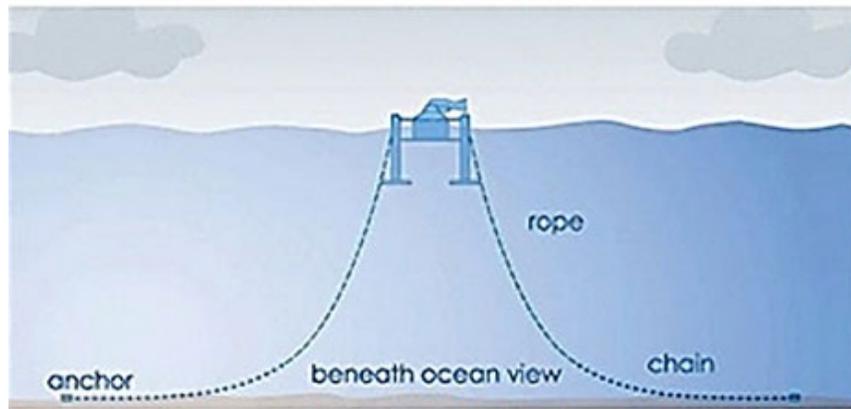

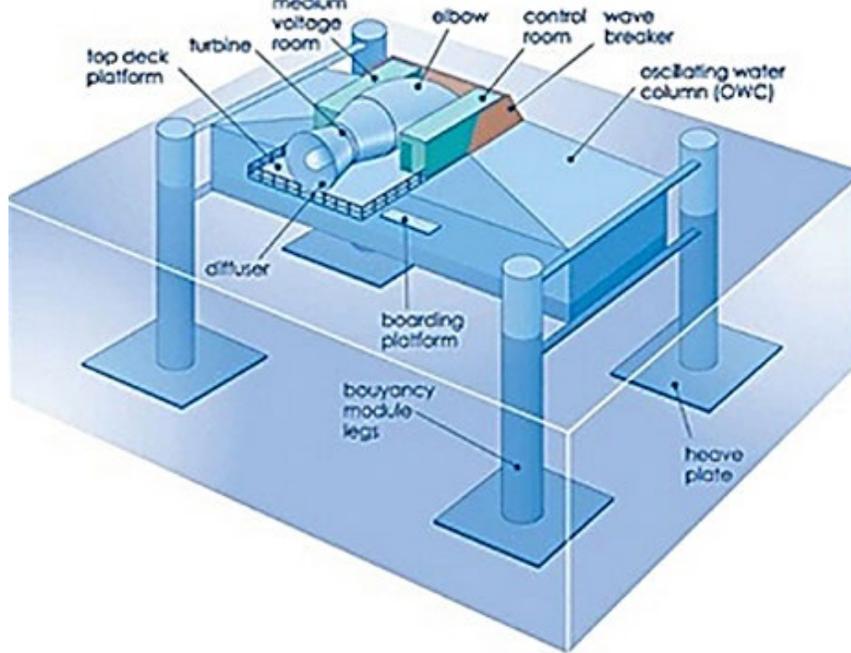

Time: 6.30 ~ 8pm Monday 1st February 2010

Event location: Sans Frontiers Room, 2nd Floor, Kindness House, 288 Brunswick St, Fitzroy VIC.

Scott Hunter is the Engineering Manager and Naval Architect for Oceanlinx. Oceanlinx is a leading renewable energy company based in Australia with a unique and efficient system for extracting energy from ocean waves.

Scott's current role as Engineering Manager involves assisting the general manager of engineering in bringing the concepts developed through R&D to reality.

In this discussion group we will discuss how wave power technology works, discuss current projects in NSW and its potential to provide zero carbon electricity.
