

2010 - Chart of The Year

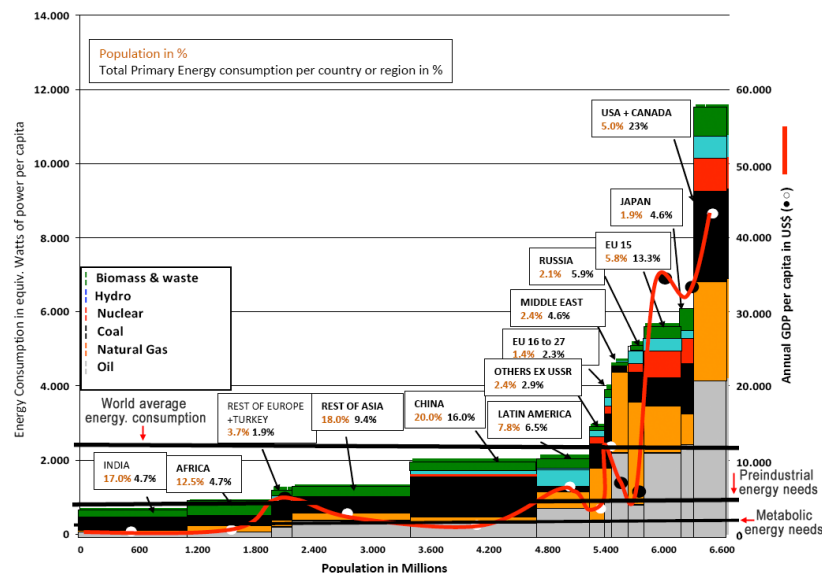

Posted by [Euan Mearns](#) on January 1, 2011 - 6:57pm

A picture says a thousand words. In this post you will find only charts and graphs conveying important points from the world of energy 2010.

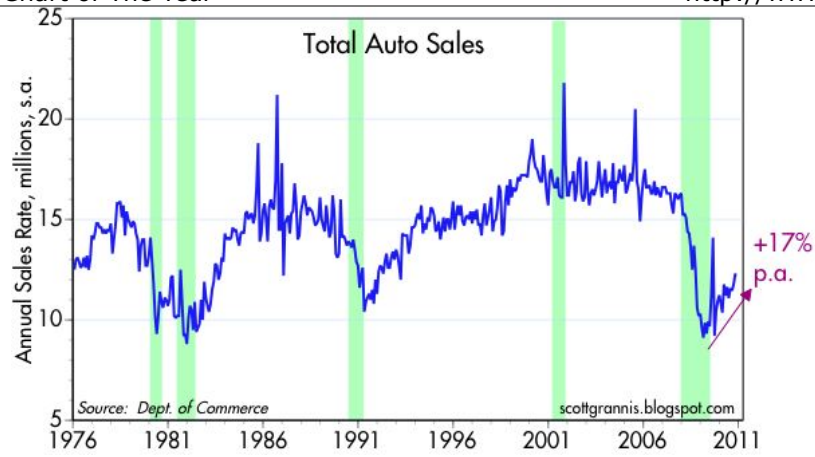

Readers are invited to post their favorite charts from 2010 in the comments. Instructions are given at the end of this post. **This is a charts only thread**, no text at all (though posting links is OK), noncompliant posts will be deleted. An energy theme is preferred though other related themes such as economy, population, sustainability are acceptable. Climate charts that do not link directly to energy will be deleted.

Within a week or two TheOilDrum will host an open thread that will enable discussion of the charts posted, but today is New Year, discipline please - charts only. Thank you - and hopefully a happy 2011 to one and all.

NON OECD - IMPLIED SUPPLIES OF PETROLEUM PRODUCTS**JAN 2001 - JUN 2010**

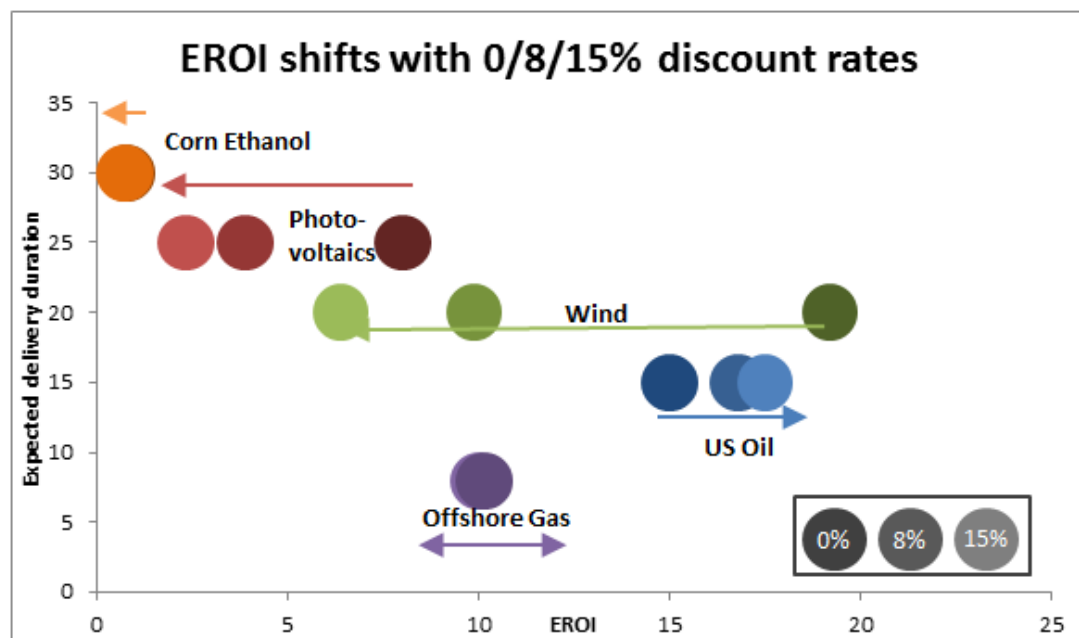

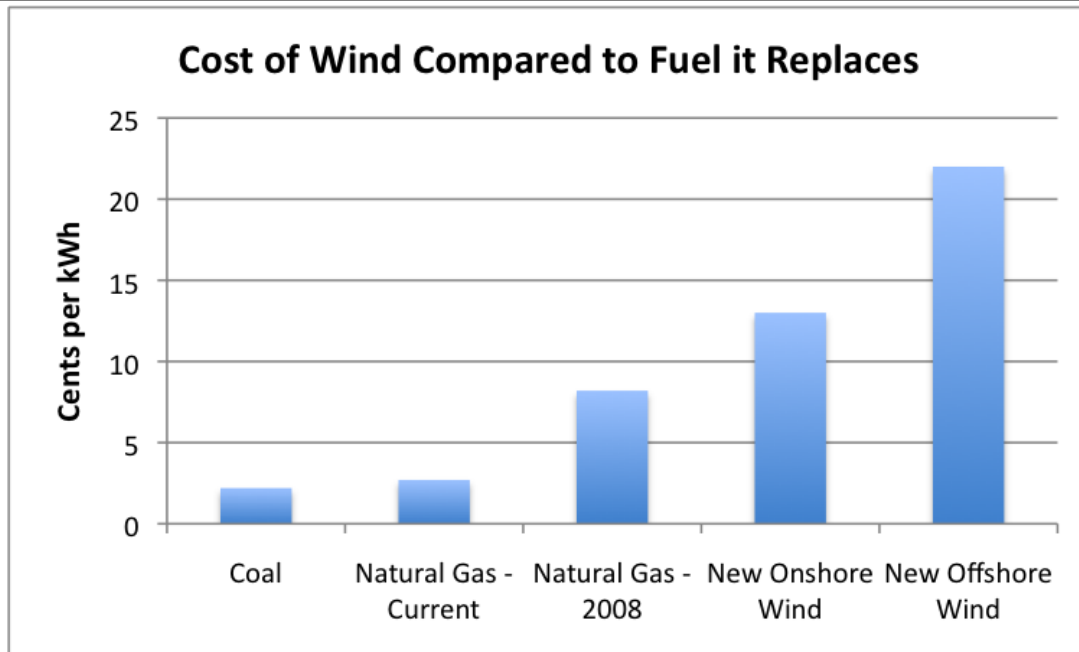

SOURCE: EIA INTERNATIONAL ENERGY STATISTICS

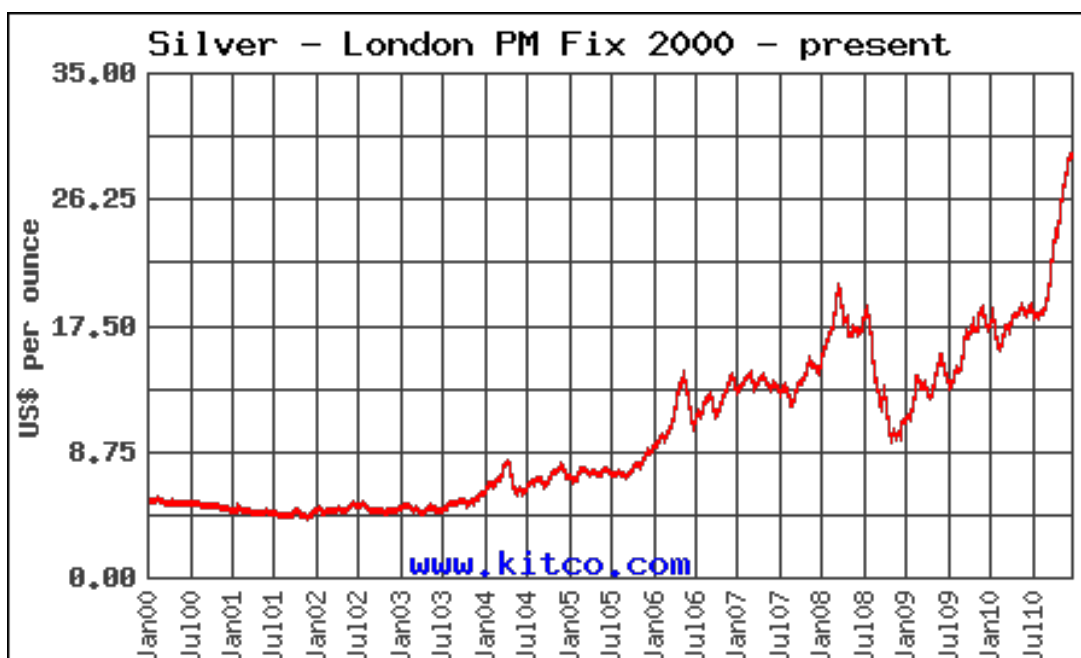

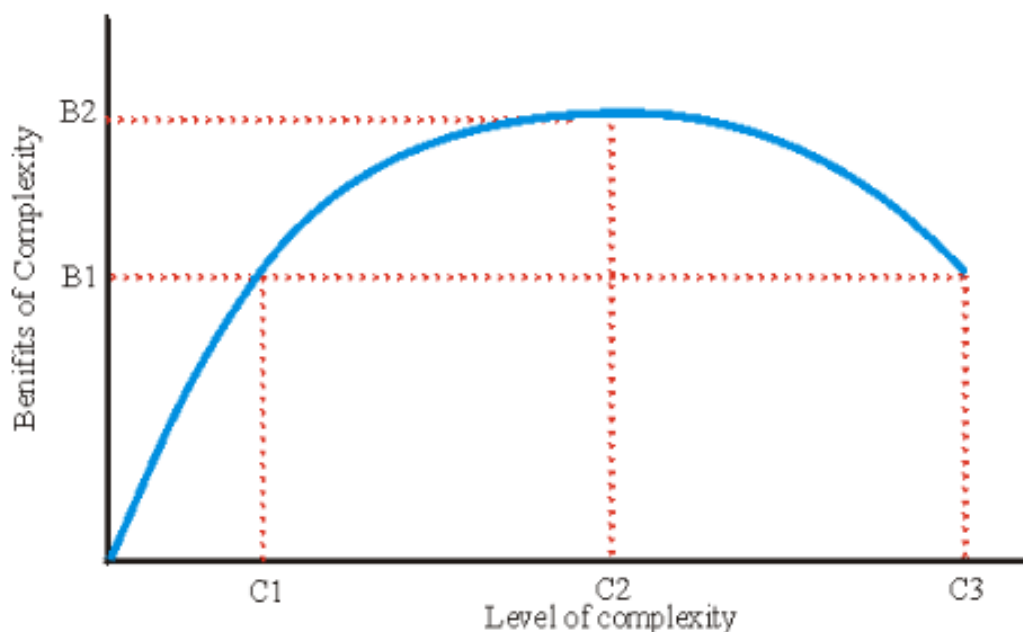

**OPEC₁₂ CRUDE OIL, LEASE CONDENSATE AND NGL SUPPLIES****JAN 2001 - AUG 2010**

SOURCE: EIA INTERNATIONAL PETROLEUM MONTHLY NOVEMBER 2010

To add your own images (no text), use the following procedure:

- 1) If you have an image on your computer, upload it to an online image hosting server (e.g. www.photobucket.com)
- 2) Copy the hyperlink to that image
- 3) Paste after < img src=" and before "> (remove the space before the 'img')

(It will look like < img src="http://s571.photobucket.com/albums/oilchart.jpg" > or some such (but without the spaces at beginning or end)
