

Conservation ads on TV?

Topic: [Miscellaneous](#)

Did anyone else see those ads on TV last night for conservation, brought to us by some national oil and energy board, or something like that? They were on during NBC Nightly News, but I was tied up on a phone call and couldn't write down the web address they put up. If you know what I'm talking about, please comment. Otherwise, you can use this as an open thread.
